OBJECTIVE

Ex Mechanical Engineer, seeking full-time front-end webdevelopment roles.

EDUCATION

Bachelor in Mechanical Engineering, Mumbai University

2015 - 2019

SKILLS

Technical Skills HTML, CSS, JavaScript, Git GitHub, AI Tools

Soft Skills Adaptability, Communication, Resilience, Teamwork

EXPERIENCE

Service Consultant

Nov 2020 - Sept 2023

Ishna Wheels Authorised Royal Enfield Service Center

Mumbai, Maharashtra

- Implemented a streamlined customer service process, resulting in an increase in customer satisfaction scores within the first six months of employment.
- Played a key role in resolving complex customer issues, leading to a reduction in customer complaints and enhancing overall service quality.

Service Consultant

June 2019 - Jan 2020

Palladium Automotive Authorised Royal Enfield Service Center

Mumbai, Maharashtra

- Established and set up the service center, leveraging engineering background to develop and implement efficient processes for dealership operations.
- Developed standard operating procedures (SOPs) for customer complaint resolution and handling of parts-related complaints regarding vendors.

PROJECTS

Amazon UI Clone. Developed a UI clone of Amazon using HTML and CSS, incorporating anchor tags for functional navigation. Demonstrated proficiency in frontend development by replicating design elements. The project showcases attention to detail and hands-on experience with web technologies.

Spotify UI Clone. Developed a UI clone of Spotify using HTML and CSS. The project showcases attention to detail and hands-on experience with web technologies.

JavaScript Projects. Developed various JavaScript projects, like a To-Do App for task organization, a Weather Checking App with live data, and a Dictionary App for vocabulary expansion. Also, I've developed a QR Code Scanner and a Calculator App. These projects showcase my JavaScript skills and passion for practical solutions.

EXTRA-CURRICULAR ACTIVITIES

- I'm a passionate explorer who finds joy in thrilling bike rides to discover new places. I capture these exciting adventures through vlogs. In my spare time, I enjoy singing, delving into books, and immersing myself in the world of stock market investments with unwavering dedication.

LEADERSHIP

- As a member of the G.K.D.C. Student team during my Mechanical Engineering studies, led the Braking Department and managed Accounts and Finance. Coordinated with team members to design and build a go-kart for competition. Achieved a remarkable 36th ranking, a significant improvement from the previous year's performance outside the top 75.
